

Yayasan Peduli Anak
Laporan Triwulan Konselor

Name	Irsyad
Date and Place of Birth	Sesela, 17 July 1998
Mentor	Luki Lukman Hakim S.Pd
Evaluation Time	April-June 2015
Class	7 Junior High School
Child ID	PA-A0088

Physical Condition

Irsyad's physical condition is still like previous months. He still looks thin even though he has good appetite and always eats big portions. He only got a stomach ache once and it was immediately treated. He takes care of his body by taking regular showers every day, but sometimes he refused to use shampoo. Irsyad rarely exercised and only did sports at school.

Mental Condition

Irsyad's mental condition was still like before, he still cannot control his emotion well when getting upset or angry. Sometimes he also is being stubborn when being advised by the counsellor. However, Irsyad has always obeyed the rules of the foundation.

Social Interaction

Irsyad now has no close friends in the foundation after Oki went back to his house. He often plays alone. When communicating with adults, he does not understand sometimes. But he diligently help the counsellor cleaning the shelter or helping staff who needs his help.

Educational Development

Irsyad is always enthusiastic to study at school or in the foundation. He always uses his spare time to study, even if he reads on a higher level than his current grade. He passed the semester exam and he got 5th ranked in his class. This is a very good achievement since he enters Junior high school from the equivalency program. He will enter the 8 grade in next semester.

Family

Irsyad has not had a visit from his family during the past three months.
