### Physical Condition

Karmila's physical condition has been good and she has been healthy, she has not been sick during the past three months. Her weight is 36 kg and her height is 146cm. She gained more weight than previous months. Karmila actively do exercises such as jogging in the foundation. She has a good appetite and always eats big enough portions, she will add an extra portion when she has her favorite food such as chicken. She does not like broccoli. She is able to maintain her own cleanliness well by taking showers and brushing her teeth regularly. She also always puts on lotion and cologne after the shower.

### Mental Condition

Karmila is generally calm and focused both at shelter and school. She seems to be more confident and less shy. In the classroom, she is now more comfortable being the only female student. At shelter, she feels more relaxed when playing with her female peers.

### Social Interaction

Karmila is an obedient girl and always listens to the counselor. She is also responsible in running out her daily chores in shelter. She gets along well with everyone in the foundation. She has not had any problems with her counselor or her friends.

She often helps the staff in the kitchen in preparing the food. In mid May, Karmila went to Selong Belanak beach for recreation with all of her friends and staff. She was happy to play and swim at the beach.

### **Educational Development**

Karmila diligently goes to school and she is never late. According to her homeroom teacher, Karmila shows promising improvement in her study. She likes Science, Religion and Civic Subjects because they are easy to understand. Her least favorite subject is Mathematics. She receives extra tutoring from volunteer. Karmila passed the semester exam and she will enter 6 grade next semester. She joins Art class in the foundation taught by volunteer and counselor.

### **Family**

Karmila's family never visits her at the foundation and she also never communicates with them over the phone.
