

Peduli Anak Foundation
Counselor's Quarterly Report

Name	Rendi Sayyidina
Place & Date of Birth	Menjeli, 23 October 2004
Mentor	Turmuzi S.Pd
Evaluation Time	October - December 2015
Class	4 Primary School
Child ID	PA-A0120

Physical Condition

During the past three months, Rendi often got scars on his feet and hands because he often falls during playing. The counselor took him to the clinic and gave him treatment. Rendi still needs to be directed by the counselor to take a shower and to brush his teeth everyday. Rendi loves to play soccer and jog in the afternoon.

His appetite is good and he eats enough portions every day. He gained weight up to 26kg and he is 127cm tall.

On the 3rd of October, he had dental check up, which was provided by a Dutch Dentist, and there was no problem with his teeth. The dentist only cleaned his teeth.

Mental Condition

During the past three months, Rendi often cries and gets angry to his friends when they are playing. He still has difficulties to control his emotions well and to listen to the counselors when he is crying. He talked to the counselors about his emotional condition, and he said that he is missing his family a lot. He always looks happy when his family comes to visit.

Social Interaction

During the past three months, Rendi had to be corrected by the counselors, because he often teased his smaller friends. He is close with his older friends and they often spend time together. He is very helpful to the counselors and staff, he helps for instance with cleaning the yard. On 29 November, Rendi joined the recreational trip to Selong Belanak beach. All staff, counselors, friends and the founder of Peduli Anak joined the trip. He enjoyed his holiday a lot, by swimming and playing with his friends at the beach.

Educational Development

Rendi's learning motivation has been good during the past three months. He passed the semester exam in December. Almost all his scores passed the standards, except for Indonesian and Math.

Rendi still has difficulties in writing neatly, because he is used to write in big letters. While at Math, he still has difficulty in memorizing the multiplication table from 3-10. To help him, he attends remedial class, which are assisted by the counselors. Rendi also learns to play the Gamelan (Traditional Music Instrument) once a week and he can play it very well.

Family

Rendi's family often visited him at the foundation. In December, he went home and spent his school holiday with his family for a week.
