

Peduli Anak Foundation
Counselor's Quarterly Report

Name	Deni Hamdani
Place & Date of Birth	Babakan, 17 January 2002
Mentor	Amiruddin, S.SOs.i
Evaluation Time	October - December 2015
Class	5 Primary School
Child ID	PA-A0129

Physical Condition

Deni's physical condition does not change much from previous months. His height is still 135cm and his weight is 42kgs, just like previous months. Deni got diarrhoea once and he directly got treatment from the counsellor. His appetite is good during the past three months and he often adds his meal portion especially when there's his favourite menu such as sweet tempeh. He does not really like small fish and eggplant.

Deni is able to maintain the cleanliness of his body well and he always looks clean and neat. He is also an active boy so he often plays soccer, swims and jogs at the weekend.

On 3 October, Deni had dental check up from the Dutch dentists and he has no problem with his teeth. While on 15 October, Deni got the second hepatitis vaccine.

Mental Condition

Deni is a quiet boy and usually does not talk much, but he is active and a diligent boy especially when doing his chores and other activities at the foundation. He is always polite and often gets points for his good behavior.

Social Interaction

Although sometimes Deni is nosy to his friends, he likes to share his food with his friends. He also often helps the counselor to organize the younger kids in the shelter. Besides that, he also sometimes helps the staff with work around the foundation and in the kitchen.

On 13 October, Deni attended a seminar on healthy lifestyle and the dangerous of drugs, held

by the National Drug Agency of West Nusa Tenggara.

On 29 November, Deni had a recreational trip to Selong Belanak beach with all of his friends, counsellor and the founder of Peduli Anak. He enjoyed his holiday by swimming and playing at the beach with his friends.

Educational Development

Deni shows a good progress in his education during the past three months. He studies every night with the counselor and he can memorize the multiplication table that eases him to do the Math tasks in the classroom. On 7 December, he passed the first semester exams and received his report card, but his grades for 4 subjects are lower than average therefore he has to study more for next semester to increase his scores.

For after school activity, Deni joins the Gamelan class where he can play one of the traditional music instruments and learn to play 5 songs with his friends.

Deni also joins the photography class taught by volunteers. He's learnt how to take pictures using different techniques.

Family

During the past three months, Deni has never got a visit from his family at the foundation. But on 3 December, he went home and spent his school holiday at home with his family.
