

Peduli Anak Foundation Counselor's Quarterly Report	
Name	Lalu Kardi
Date and Place of Birth	Perbawa, 12 May 1997
Mentor	Khairil Anwar
Evaluation Time	April - June 2015
Class	9 Junior High School
Child ID	PA-A0058
Physical Condition	
<p>Kardi had fever a few times during this time period. In June, he got surgery to take out a warth beside his ear and he had to go to the clinic once a week after that. Kardi was able to keep his body clean and he rarely did exercise during the past three months. His appetite decreased because he was sick. His weight is 55kg and his height is 170cm. Kardi sometimes had insomnia and went to sleep late at night.</p>	
Mental Condition	
<p>Kardi feels restless thinking about his future when he is going to continue his study in Central Lombok and is going to live back with his family. Kardi is often sad when talking about his family.</p>	
Social Interaction	
<p>Kardi's social interaction is good during the past three months. He has good interaction with all the people in the foundation. He often communicates with the staff of Peduli Anak. Sometimes he has problems with his friends and the counsellor in the shelter, but he has been willing to receive the disciplinary actions.</p>	
Educational Development	
<p>Kardi passed the National exam and graduated from Junior High School. He will continue his education in Senior High School in Central Lombok. s</p>	
Family	
<p>Kardi officially went back to his family and stayed with them because he wants to continue his studies in Central Lombok.</p>	
Additional Information	
<p>Although Kardi will live back with his family, Peduli Anak is still sponsoring his education due to the family's economic difficulties.</p>
