Nurul got itchy on her skin because of skin fungus. The doctor said that she doesn't wash her body clean enough during shower. The counselor always put ointment on her skin after shower and washed her clothes with hot water and separated them from her friends' clothes. The counselor helps Nurul to wash her body clean. Nurul has a good appetite and she eats in enough portions every day. Her weight is still 17,6 kg and she is 117,5cm high.

On 3<sup>rd</sup> October, Nurul has a dental check up from the Dutch dentists and she has no problem with her teeth.

#### **Mental Condition**

Nurul often looked moody because she pouted and cried easily when someone teases her. She would show her sullen face and did not say anything, but this is not for a long time. When she is calm, she would be cheerful as usual. Nurul joins Theraplay with her peers. This program is conducted by volunteers. As the result, she becomes more confident when interacting with her friends.

#### **Social Interaction**

Nurul's social interaction is better than previous months. She becomes friends with Lasmin and Wulan and she looks confident when talking and playing with them. At the foundation, she is one of popular children for visitors and volunteers because she is friendly and talkative.

On 25<sup>th</sup> November, she had Fun days at school and celebrated the teacher's day with games and competitions. On 29<sup>th</sup> November, she had a recreational trip to Selong Belanak beach in Central Lombok with all of her friends and counsellors. She enjoyed her holiday by played and swim at the beach.

### Educational Development

Nurul still has some lessons to catch up at school. At Math, she is still learning the multiplication. She also needs to practice more with her. In the shelter, she takes extra time learning Math and Writing with the counselor after school. In December, she passed the semester exam and she received her report card. She passed all the standard scores.
