Mentor	Turmuzi, S. Pd
Evaluation Time	April-June 2015
Class	4 Primary School
Child ID	PA-A0080

Physical Condition

Rizky's physical condition was good for the past three months. He was good in maintaining the healthiness of his body well by diligently taking shower and doing sports. His weight is 30kg and height is 133cm. His appetite was good and he ate enough portion, sometimes he added his meal portion during lunch time. Rizky is usually very active in the afternoon and he sleeps on time at night.

Mental Condition

Rizky's mental condition did not really change much during previous months. He is moody and still learning to be more patient. This caused him to be involved in small fights with his peers, although they usually got over it.

Social Interaction

Rizky is friendly and polite when interacting with adults and his peers. However, he could be more emotional and selfish when playing with younger kids. He might not realize that he teased them too much and they ended up crying.

Educational Development

Rizky shows promising progress in educational development. He passed the semester exam and got nice scores especially in his favorite subject, Math. His least favorite subject is Civic Studies, because of too much reading material. Rizky always did his homework in shelter although he needed to be reminded by the counselor. Rizky continues to grade 5 next semester.

Family

During the past three months, Rizky regularly communicated with his aunt by phone. His aunt never comes to see him in the foundation.
