

Peduli Anak Foundation
Counselor's Quarterly Report

Name	Bahrin Parihin
Place & Date of Birth	Gerantung, 31 August 2002
Mentor	Muhammad Jufri S.Sos.I
Evaluation Time	April-June 2015
Class	5 Primary School
Child ID	PA-A0117

Physical Condition

Parihin got a flu and fever in May, but the counselor immediately brought him to the Clinic near the foundation. He got treatment and recovered a few days later. In June, he was healthy and he gained weight. His appetite was good and he ate in enough portions, sometimes he even added his portion. Parihin was very good in maintain the cleanliness of his body by taking a bath and brushing his teeth regularly.

Mental Condition

Parihin's mental condition was not really good during the past three months because he often looked sad and not cheerful as the previous months. He refused to talk when the counselor asked him to talk. When someone asked him a question, he would give a short answer and go.

Social Interaction

Parihin's social interaction was not really good because he rarely played with his friends and always refused when his friends asked him to play with them. But he likes talking with his close friend, Solihin. Unlike previous months, he rarely helped the counselor and was not motivated in running out his daily chores.

Educational Development

Parihin's motivation in learning was not really good because he could not focus when studying in the classroom and he got standard scores in semester exam. He will enter the 6th grade in next semester.

Parihin likes Social Studies and Religion subjects because he said that those subjects are easy to understand. While he still found difficulties in Mathematics, Parihin behaved active in Art class twice a week outside school.

Family

Parihin had never got a visit from his family, but he often got a package from his family through Solihin's family. He was very happy to get that package.
