

Peduli Anak Foundation
Counselor's Quarterly Report

Name	SUPRIADI (Cupi)
Date and Place of Birth	Tanak Tepong, 31 July 2003
Mentor	Amiruddin S.Sos.I
Evaluation Time	April – June 2015
Class	5 Primary School
Child ID	PA-A0085

Physical Condition

Cupi's physical condition has been good for the last three months. He has never got sick. His weight is 46kg and he is 155cm high. His appetite has been good; he has never been picky about his food. He ate big portions every meal time. He especially likes broccoli. Cupi has been able to maintain his health by doing sport like playing soccer and jogging with his friends. Yet he still needs to be reminded to take a shower two times a day because he often objects to doing it.

Mental condition

Cupi's mental condition has been good. He indeed has been able to control his emotions well. His participation in running competition boosted his confidence and put him in good mood most of the time.

Social Interaction

Cupi prefers to play with his peers than with his younger friends. He has close friends who always play or do other activities with him. He has a good interaction with older people in the foundation and he has often helped the staff to clean the yard of the foundation.

Cupi has often delayed his tasks or has been slow when doing his activities in the shelter. But he is an obedient child and has not broken the rules of the foundation during the past three months.

Educational Development

Cupi's educational development was good. According to his teacher, Cupi was usually engaged in learning in the classroom. He is trying to catch up with his study, especially in Math. He's also become more independent when doing tasks.

Family

Cupi's family didn't visit him during this time period. However, he calls them regularly. He said that he likes talking to them.

Additional Information

Cupi participated in running competition for all primary schools in the district and he won the first place.
