Place & Date of Birth	Rempek, 23 April 1996
Mentor	Tri Maliah Atika, S.Pd
Evaluation Time	April - Juni 2015
Class	9 Junior High School
Child ID	PA-0036

Physical Condition

Atun's physical condition was good in the past three months, she also never got sick. Her appetite is good and she eats enough portions every day. Atun diligently takes care of herself and can maintain the cleanliness of her body and clothes well. She always looked clean and she put on lotion, deodorant and perfume every day.

Mental Condition

Atun can be moody because she often gets upset about her friends, especially her younger friends who do not want to do the daily chores or don't listen to the counselor. But Atun is nice to her younger friends who listened to the counselor and she is like a big sister to them. She often talked to the counselor about her problems.

Social Interaction

Atun's social interaction is good with her friends although sometimes she is upset about them. But she is caring to her younger friends. She never chooses a specific friend to play with. She also has a good interaction and communication with the staff and volunteers in the foundation.

In may, she went to Selong Belanak Beach with all of her friends and staff of Peduli Anak. She enjoyed her holiday with them.

Educational Development

Atun's educational development is good and her learning motivation is high. She studied hardly and did all the tasks given by her teacher. She passed the National exam and graduated from Junior High school with good scores. She will continue her study to Senior High school and take a Fashion Design major.

Atun attended school every day and she never missed a class. She did not join any extracurricular activity at school because she focused on National Exam. While in the foundation, she joined Girls club and English class taught by volunteers.

Family

Atun often got a visit from her aunt or her uncle during the past three months. They always brought her favorite food and she shared it with her friends.
