Child ID	PA-A0124

#### **Physical Condition**

Putra's physical condition has been good during the past three months and he has not been sick. He also has gained more weight compared to the previous months, because he has a good appetite and eats enough every day. Putra diligently takes showers and brushes his teeth so he looks clean and neat. He also always takes a nap and goes to sleep on time at night.

#### **Mental Condition**

Putra's mental condition has been good during the past three months. He doesn't cry easily anymore when playing with his friends. He also was not looking down anymore when the counselor or other staff was talking to him. He looked happy when playing with his friends.

#### **Social Interaction**

Putra's social interaction has been getting better, because he has close friend and a new roommate, Reza who always plays with him. Putra is getting more confident when dealing with older people such as the counselor and other members of staff. He also interacted well with the volunteer that taught him in the Kindergarten.

#### **Educational Development**

Putra's educational development has been very good in the kindergarten. He has already memorized the pictures and mentions their names. He also can sing songs that he learned from his teacher at the Kindergarten and the song he heard from his friends and TV. He also can write the alphabet and numbers well.

#### **Religious**

Putra's religious activities still have been the same like previous months. But he is getting better in reciting the basic Quran. He also prays five times a day with his friends at the mosque.

#### **Family**

Putra's family has not been visiting him at the foundation during the past three months.

#### **Additional Information**
