Physical Condition

Andi's physical condition was not really good for the last three months because he eats less than before and his weight has decreased 3 kg (From 38kg to 35kg) from previous months. He also had itchy and red spots on his body but he was immediately given treatment by the counselor. It has gone in a week. Andi's height is 141cm.

Mental Condition

Andi's mental condition was good and stable for the last three months. He was able to control his emotion well even when directed by the counselor to do the daily chores.

Social Interaction

Andi's social interaction was good as usual. He never had problems with all of his friends and staff in the foundation. He often helped his friends because he said that he likes to help. Andi often played with his close friends, Sahdan, Solihin and Parihin. When interacted with volunteers, he did not look shy anymore. He also diligently helped the counselor in the shelter so all the counselor like him.

Educational Development

Andi's learning motivation was very good. He already passed the semester exam on June and get the first ranked in his class and got a reward from his teacher. He will move to grade 5 in next semester. At school, he followed extracurricular Drama, Computer, English and Art Class, he got nice scores on those activities. Andi likes all of the subjects at school and he never faces difficulty when study them.

Family

Andi had no contact with his family during this time period.
