

Peduli Anak Foundation
School Progress Report

Name	Marniati
Date & Place of Birth	Senaru, 28 March 1997
Mentor	Baiq Sahni S.Sos.I
Academic Year	Semester 1 – 2015/2016
Class	11 Senior High School

Mentor's Remarks:

Marni's educational development was good in this semester. Her learning motivation was high and she diligently studies at school.

She likes Sewing Technology and Basic Pattern subjects because she likes making dresses. While her least favorite subject is Mathematics because it is hard to understand.

At school, Marni is well-known as a friendly and nice girl, she has many friends at school. She is also polite to the teachers.

Started from November until February 2016, she is doing the internship in one of Sewing Service Store. She is liked by her supervisor and often got a bonus, because her sewing results are nice and she always did it in time. Moreover, she diligently helps the other staff to clean the place. In the last two months, Marni's sewing products are getting better, but she still got difficulty on making Kebaya because she never made one. Therefore, she is still trying to learn it from her supervisor.

In this semester, Marni is focusing on her internship, therefore she did not receive her report card. She will get her report card after she finishes her internship period.
