Mentor's Remarks

In this second semester, Mukhlis's motivation to study was lower in the shelter and he needs to be reminded to study. However, his motivation increased when he encountered the Semester exam. He passes to grade 8 in the next semester and his scores are above standard.

Mukhlis likes Mathematics. He's really enthusiastic to discuss about it with his friends. He got the highest score in Mathematics in the semester exam. His least favorite subject is Indonesian because he still has problem writing in formal language and he feels that he does not have good talent in story writing.

Mukhlis did not join the extracurricular activity because he couldn't find any activities he liked. He is already busy with his duty as a member of Student council.

Mukhlis has a good interaction with his friends. He has no problem with them and he has many friends at school. He is still shy to talk with his teachers outside class.
