Physical Condition

Nining's physical condition was good and healthy during this time period. Her appetite increased and she gained 3kgs. She is 143cm high.

Nining started to concern about the cleanliness of her body and her clothes, especially now that she is an adolescent. She usually ties her hair up in order to make it tidy.

Mental Condition

Nining is generally in good mood although she can be somewhat impatient, especially when playing with her peers. After coming home from school, she seems tired and mellow. However, after taking a short break, she is cheerful again.

Social Interaction

Nining often played with her younger friends such as Farel, Wulan and Lasmin. Sometimes she played with boys from shelter 3 too. Nining is learning to control her emotions when playing with her friends. She could get easily upset and left her friends while they kept on playing. Nevertheless, she is more caring towards her younger friends such as Lasmin, Nurul, and Farel. Nining is like a big sister to Farel, who is the youngest child in Peduli Anak.

Nining also often helps the staff to prepare food in the kitchen so the staff likes her. Nining is always friendly to volunteers in YPA, she looks confident when she talks to them.

Educational Development

Nining showed good learning motivation during the past three months. She passed the semester exam in June with satisfying results. She will continue to grade 8 next semester. She joined Scout as her extracurricular activity at school and she also followed Art class and English class at the foundation.

At school, Nining likes English because it is easy to understand. She doesn't really like Arabic because it is hard to understand. Nining is a friendly and good student at school, thus her teachers and her friends like her.

Family

Nining communicated with her family during the past three months. Her uncle came once to the foundation for a visit. Her aunt works overseas, but she keeps regular contact with her by phone.
