### Physical Condition

Ishak's physical condition was good for the last three months. He never got sick because he was able to maintain the cleanliness of his body and never forgot to brush his teeth.

His weight is 34kg and his height is 137cm now.

His appetite was also good and ate in enough portion every day, sometimes he even added his portion especially when his favorite food appeared in menu. He was never picky about food.

### Mental Condition

Ishak's mental condition was moody for the last three months. He still cannot control his emotion especially towards smaller friends. But he is polite to the older people and often helps them. Ishak is a creative boy. He often made his own toys with recycled materials. Because of this, his friends liked to gather around him.

### Social Interaction

Ishak has a good interaction with his friends. His creativity always makes them happy to play with him. But he said that he likes to play with his friends who are creative like him in making toys. His relation with the counselor is good and he always greets them and often initiates small talks.

## **Educational Development**

Ishak's learning motivation is increasing during the past three months. He often asked counselor to assist him to study after school and at night.

Ishak likes Civic Studies because it is easy to understand when his teacher explains the materials. And his least favorite subject is Social studies, for his teacher gives him too much tasks.

His scores are: Religion: 75, Civic Study: 63, Indonesian Language: 65, Mathematics: 65, Science: 70, Social Studies: 75, Art & Culture: 70, Sports: 75, English: 60, Computer: 70 and Drama: 75.

## **Family**

Ishak often got a visit from his family and they brought him his favorite food and snacks. He was very happy when they came.
