### **Physical Condition**

Alpiandi's physical condition was good during the past three months and he never got sick. He gained weight because his appetite was always good. Alpiandi also diligently maintained the cleanliness of his body well by taking bath and brushing his teeth regularly.

### **Mental Condition**

Alpiandi's mental condition was good during the past three months because he was able to control his emotion well and never made problem. He always looks cheerful and really enthusiastic when running his activities in shelter and at school.

### **Social Interaction**

Alpiandi's social interaction was getting better because he interacted well with his friends and staff in the foundation. Alpiandi was very diligent in helping counselor and other staffs in the foundation. He always got plus grade from counselor.

### **Educational Development**

Alpiandi's educational development was good this semester. He is a diligent boy and never forgot to do his tasks and his homework in shelter. He also got nice scores at school. His favorite subjects are Indonesian language and Social studies because they are easy to understand, but he really hates Mathematics. In the foundation, he also joins Art class once a week.

### **Religion**

Alpiandi diligently prays five times a day in congregation at the mosque, he also never forgets to recite the Quran. Although he cannot recite the Quran very well, he is still learning the basic quran industrially.

### **Family**

Alpiandi's relationship with his family was good. His grandfather comes regularly for a visit and Alpiandi was happy when he comes.
