Physical Condition

Ramli's physical condition has been good and he has been healthy. He has not been sick during the past three months. His appetite has been good and he has eaten in enough every day. He also has gained weight more than previous months. He was able to maintain the cleanliness of his body well and doing exercise in the foundation. He has had enough rest in the afternoon and goes to sleep on time at night.

Mental Condition

Ramli's mental condition has been the same as previous months. He has been able to control his emotions well, and always behaves good to everyone. He also has not done anything bad or broken the rules during the past three months. He is always in a good mood and looks cheerful when playing with his friends.

Social Interaction

Ramli's social interaction has been good during the past three months. He easily gets along with everyone and quickly gets friends. He is actively playing and doing other activities with his friends. He is a friendly boy so his friends feel comfortable with him. He also often helps the counselors or other members of staff out.

Educational Development

Ramli's educational development has been good because he has had a good motivation to study at school and in the shelter. He is always enthusiastic when going to school and still get nice achievements. He passed the semester exam and got 2nd best ranked in his class. He will enter the 8 grade next semester.

Ramli likes Mathematics and he always gets good scores from it. While his least favorite subject is English because he said that it is not easy to understand. But he still joins the English class in the foundation taught by the volunteers to improve his understanding.

Family

During the past three months, Ramli did not get visits from his family.
