

Peduli Anak Foundation
Counselor's Quarterly Report

Name	Elma Yuliana
Place & Date of Birth	Sangiang, 1 July 2002
Mentor	Tri Maliah Atika, S.Pd
Evaluation Time	April - June 2015
Class	7 Junior High School
Child ID	PA-A20020

Physical Condition

Elma's physical condition was good during the past three months and she never got sick. She has a good appetite and likes to eat healthy food such as vegetables and fruits. She is also never picky about food. Elma looks neat and clean every day because she is able to maintain the cleanliness of her body and clothes. She always puts lotion, deodorant and perfume before going to school.

Mental Condition

Elma's mental condition has changed during the past three months. She is able to control her emotion when things are not going as planned. Elma often vents her feelings to her friends because she is still shy of talking about what she feels to the counselor.

Social Interaction

Elma's social interaction is good because she can play with anybody and she doesn't choose only specific friends to play with. She also has a good interaction with staff and volunteers in the foundation. She often looks grateful with them.

In May, Elma went to Selong Belanak beach with all of her friends, staff and the founder of Peduli Anak. She enjoyed her time with her friends at the beach.

Educational Development

Elma studies hard at home and school. She always finishes her school homework. She passed the semester exam and got 8th rank in her class. She will enter the 8th grade next semester. Elma never misses school. She takes no extra course at school because she wants to focus on her study. While in the foundation, Elma joins Girls Club and English class taught by volunteers.

Family

Elma's family often visit her in the foundation. When she misses them, she would ask the counselor to call them so that she can talk to them. She is happy about it.
