### Physical Condition

Solihin's physical condition is good and healthy. He never got sick during the past three months. He also diligently takes shower and brushes his teeth after each meal. He is able to take care of himself very well and maintain his body and his clothes clean. He always look clean and neat. Solihin has a good appetite and he always eat good portion, sometimes when it's his favourite food on the menu he takes an extra portion. Solihin only do sport at school.

### Mental Condition

Solihin's mental condition is stable. He is often looking for attention of other people. Sometimes he is stubborn. Solihin usually follows the rules in the foundation. When he has to do the daily chores, Solihin is always acting slow.

### Social Interaction

Solihin's social interaction is good with his friends. He is polite to the older people. He also often talks or plays with volunteers in the foundation.

### Educational Development

According to his teacher, Solihin still needs to practice more in writing and understanding the sentences. He passed the semester exam and he needs to take extra classes in English because his score is below the standard. But he will move up to the 4<sup>th</sup> grade in next semester.

Solihin's interaction is good with his friends and his teacher at school. He is always polite with them.

### Family

No communication with his family during the past three month and he never gets a visit from them.
