#### **Physical Condition**

During the past three months, Syafaat's physical condition is good. He still goes to doctor for his eyes check up. He has to avoid dust and stay away from animals such as cats and chicken. His weight is still 49kg and he is 159 cm high. Syafaat always looks clean and neat because he takes care of his appearance.

#### **Mental Condition**

Syafaat's mental condition is good during the past three months. He is an independent and responsible boy. He usually looks happy and cheerful. He is able to control his emotion well and he doesn't like to complain.

#### **Social Interaction**

Syafaat's social interaction is good because he has many friends who care about him. He goes to school with his friend. His friends often come to his house to play or study together. He likes when they came because he did not feel alone.

During school holiday, he came to the foundation and helped the counsellor managing his smaller friends in shelter.

## **Educational Development**

During the past three months, Syafaat's learning motivation is still good like before. He already finished his internship in a Drugstore in Mataram and now he continues his study at school. He said that he gained a lot of knowledge, experiences and skills during his intership.

In December, he passed the semester exam and received his report card, he got 1302 total scores from 16 subjects and 81.35 in average. Now Syafaat can make medicine for adults such as for cough, fever, flu and diarrhea. He also can memorize diseases and their medicine.

At school, he likes all the subjects because he said that all of them are important. He did not join extracurricular because he wants to focus on his study since he will face the National exam on May.

Syafaat is a nice boy and he has many friends at school. He is also polite to the teachers at school and never had problems there. Education means a lot to him and it is a dream that came true that he is able to study now.

## **Family**

Syafaat has a good relationship with his family and they also care for him especially his aunt who lives near his house.

## **Additional Information**

Syafaat really likes his major and still hopes that he will continue his study in University because he wants to be a pharmacist.
