### **Physical Condition**

Jupri's physical condition has been like previous months. He has never got sick for the last three months and always had a good appetite, he has indeed always added to his portion when eating. He has been able to maintain the cleanliness of his body since he has diligently taken his shower and has never forgotten to brush his teeth. But he still needs to be reminded to cut his nails. Jupri likes playing soccer with his friends and trying some yoga poses.

### **Mental Condition**

Jupri's mental condition has been good for the last three months. Generally, he has been able to control his emotion well and has always obeyed when the counsellor directed him. He has been good at expressing his feeling. But he didn't like when he was playing and his friends disturbed him, and because of that he has often quarrelled with his friends.

### **Social Interaction**

Jupri's social interaction has been good for the last three months. He has always been active when playing with his friends in the shelter and at school. In the foundation, he has diligently helped the staff to clean the yard. Jupri followed recreation to Selong Belanak beach with his friends and staff of Peduli Anak Foundation. He really enjoyed playing around the beach with his friends.

### **Educational Development**

Jupri's educational development has been good. He has been able to gradually catch up on the subjects that he did not understand before. He has been able to understand the sentences and to improve his writing, he also has had special learning schedule in the evening with the counsellor. Jupri likes Science and Social Science. The subject he likes the less is Mathematics. He already passed the semester exam and he got 4<sup>th</sup> ranked in his class. He will enter the 4<sup>th</sup> grade next semester.

## **Family**

Jupri has never contacted his family and they have never visited him at the foundation.
