Mentor	Muhammad Jufri S.Sos.I
Evaluation Time	July – September 2015
Class	6 Primary School
Child ID	PA-A0117

Physical Condition

Farihin's physical condition has not changed much compared to the previous months. His weight is 28kgs and he is 135cm tall. His appetite is not really good in the morning, but it increases in the afternoon.

Farihin diligently takes care of his personal hygiene and he always looks clean and neat.

On the 23rd of September, he had to take anthelmintic drugs to destroy parasitic worms. This program is held routinely once a year to all the children in the foundation.

Mental Condition

During the past three months, Farihin is often found daydreaming. He said that he feels homesick and he misses his mother.

Social Interaction

Farihin is close to his best friend, Sholihin. They always play together. Farihin is polite to the counsellor, staff and people in general. He often helps them out around the foundation.

On September the 6th, Farihin went to Kuta beach in Central Lombok for a recreational trip with all of his friends and counsellors. He was happy to play and swim with his friends.

Educational Development

Farihin's learning motivation seems to be lower in this period because he often loses his focus and daydreams in class. He needs extra help in Math, but he excels in Religion Studies. In the shelter, he's got extra lessons for Math with volunteers twice a week.

Family

During the past three months, he did not get a visit from his family. He went home and spent his holiday with his family. He celebrated the Eid Mubarak with his family and was very happy about it.

Additional Information

Counsellor already called his uncle to deliver his message to his mother that Farihin wants her to visit him at the foundation.
