Physical Condition

Martini has been healthy during the past three months. Her appetite has been good and she eats big enough portions. Her weight is 42kgs and 157 cm high.

Martini always looks clean and neat because she is able to maintain the cleanliness of her body well. On 14th of September, Martini got injection for hepatitis B and on 23 September, she had anthelmintic drugs to destroy parasitic worms. This program is held routinely once a year to all the children in the foundation.

Mental Condition

Martini's mental condition has been getting better compared to previous months. She does not look gloomy anymore because she has already adjusted well to the foundation. She can better control her emotions well and looks more cheerful when playing with her friends. Martini obeys the rules of the foundation and always listens to the counselor.

Social Interaction

Martini's social interaction with people in Peduli Anak is good because she gets along with them well. She often helps the staff in kitchen or the counselor in the shelter. However, she rarely interacts with the volunteers because she has been shy.

On 6 September, Martini went on a recreation to Kuta beach in Central Lombok with all of her friends, staff and the founder. She looked really happy to play and swimming with her friends at the beach.

Educational Development

Martini has had a good motivation to study at school. She does all her homework and tasks given to her by her teacher. According to her teacher, she has difficulties in Mathematics, therefore she joins the extra class in shelter and now her abilities have increased. She has never made problems at school.

Family

During the past three months, Martini did not get a visit from her family. But she went home and spent her holiday of ten days at home, she also celebrated the Eid Mubarak with her family there.
