### Physical Condition

Yusri's physical condition is good and healthy during this time period. He didn't sick during the past three months because he could maintain his personal hygiene. He often exercises by playing soccer or jogging. His appetite is good and he eats enough every day. He also rests and sleeps well at night.

### Mental Condition

Yusri's mental condition has been the same as previous months. He still cannot control his emotions well when he gets upset. He seems happy when playing with his friends.

### Social Interaction

Generally, Yusri obeys the rules of the foundation. He is nice and respectful towards older people. However, Yusri sometimes disturbs the younger children and make them cry. He is still learning to apologize when he makes mistakes.

### Educational Development

Yusri's educational development is good because he is able to maintain his achievements and becomes the Top 3 in his class. He has good motivation to study and he always tries to do his best. At school, his interaction is good with his friends and his teachers. According to his homeroom teacher, Yusri's attitude is more positive and he is more respectful to other people.

## **Family**

Yusri got a visit from his father and uncle. They advised him to always show good behavior and respect other people. They also brought him his favourite snacks.
