

**Peduli Anak Foundation**  
**Counselor's Quarterly Report**

<b>Name</b>	Abdul Rahman
<b>Place &amp; Date of Birth</b>	Jago, 17 February 1999
<b>Mentor</b>	Amiruddin S.Sos.I
<b>Evaluation Time</b>	July - September 2015
<b>Class</b>	11 Senior High School
<b>Child ID</b>	PA-A0015

### Physical Condition

Rahman has not been sick during the past three months, because he has diligently exercised like playing soccer and riding his bike. He has been eating big portions every day so his weight increased to 55kgs and he is 155 high. Rahman has started to pay closer attention to the cleanliness of his body and he puts lotion on his skin after the shower.

On 23<sup>rd</sup> of September, Rahman had to take anthelmintic drugs to destroy parasitic worms. This program is held routinely once a year to all the children in the foundation.

### Mental Condition

During the past three months, Rahman has often been moody. When he has had problems with his friends, he has become unmotivated in running out his activities in the shelter. He got easily upset and did not want to listen the counsellor's advice. The counsellor has to wait until he is calm to be able to talk with him.

When he is in a good mood, Rahman usually vent his feelings to the counsellor and becomes really enthusiastic when talking about his female friend at school.

During the past three months Rahman has obeyed the rules of the foundation.

### Social Interaction

Rahman has a good relationship with his friends in the foundation and at school, though sometimes they have had small problems between them.

He has good relationship with the staff, because he often vents his feelings and asks for

advice from the counsellor. He often helps the staff to prepare food in the kitchen, especially before he goes to school. He also often plays with the volunteers who stay in the foundation.

On 6<sup>th</sup> of September, Rahman went on a recreational trip to Kuta beach, Lombok with all of his friends, the counsellor and the founder of the foundation. He has enjoyed his activities on the beach such as playing and swimming with his friends.

### **Educational Development**

Rahman has a good motivation to study at school. He also diligently attends the classes. He likes all the subjects but English is his favorite, because his teacher is firm when teaching him and his friends at class. According to him, a firm teacher who is clear in explaining the materials makes him enthusiastic to learn. A teacher who explains the materials slowly only makes him sleepy in the classroom.

In the foundation, he also joins the English class taught by the volunteer every Tuesday and Thursday afternoon.

### **Family**

Rahman went home for ten days to celebrate the Eid Mubarak with his family.

While in the foundation, his father came for visit twice on August and September.

### **Additional Information**
