Physical Condition

Karmila has been healthy during the past three months and she is very concerned about her appearance because she is entering puberty. She has gained weight to 40kgs and she is 156 cm tall. Her appetite has been good and she often adds to her portion, especially when her favourite food such as fried chicken and satay are served.

On 23rd of September, Karmila also had to take anthelmintic drugs to destroy parasitic worms. This program is held routinely once a year to all the children in the foundation.

Mental Condition

Karmila looks cheerful after spending her holiday with her family at home. She is an active girl and talking much more than her other friends, but she is also polite to older people and always listens to the counselor. She is always willing to help people who need her help.

Social Interaction

Karmila's social interaction has been good. She has a close friend, Nurmin and they often spend time together. At school, she is doing well with her friends though she is the only girl in her class.

Besides, she often helps the staff in the kitchen in cleaning the kitchen or in preparing the food.

On 6th September, Karmila went on a recreational trip with all of her friends and the staff of Peduli Anak. She did not swim at the beach and only built a sandcastle and climbed the hill with her friends, she enjoyed the activities.

On National Children Day, Karmila took part in a running competition although she did not win, she was happy because she met children from other foundations there.

Educational Development

Karmila has a good motivation to study at school. She diligently goes to school and she is never late. According to her homeroom teacher, Karmila is showing progress in her academic development, but she has difficulties in Math and Science, she has been less scrupulous in doing the tasks. She likes the Indonesian Language subject because it is easy to understand.

Karmila joins the Art class in the foundation and she can make bracelets, necklaces and brooches from rope and other materials.

Family

During the past three months, Karmila did not get a visit from her family but she regularly communicates with them through the phone.
