### **Physical Condition**

Awan's physical condition is good during the past three months. He never gets sick and always takes care of himself by taking shower and brushing his teeth regularly. His appetite is very good and he always eats good portions every day. His weight is going up in a good way.

### **Mental Condition**

Awan is usually cheerful and never looks sad. He is able to control his emotion in almost any situations. He is coming into puberty and wants to associate himself with the older boys.

### **Social Interaction**

Awan's social interaction is good at the foundation. He easily gets along with his friends and they like to be with him. He has no problem with the staff and volunteers. He also often helps the counselors with activities around the foundation. Awan is an obedient boy and he listens to his mentor's advice.

### **Educational Development**

Awan is very motivated to study. He prepared himself very well for the National Exam by studying every day. After passing the National Exam, he graduated from Primary School and got nice scores in every subject. Awan will continue his study to a Junior High School near the foundation. Awan likes English because he says that it is easy to understand. His least favorite subject is Mathematics. He has difficulties in calculations. Awan follows the

Music class twice a week in the foundation and can play music with his friends.

### **Family**

Awan's relationship with his family is going well and sometimes his mother come to visit him at the foundation. His father also comes every week to teach the gamelan (traditional instrument) for the kids. He also motivates Awan to study hard.
