Physical Condition

Hamdi's physical condition was good for the past three months and he was never sick. His appetite was good and he ate in enough portions every day. Hamdi was active in morning and afternoon, so he has a good sleep at night. Hamdi often played soccer or jogging with his friends. Hamdi still needs to be directed to taking shower.

Mental Condition

Hamdi can control his emotion well. He doesn't disturb his friends much during the past three months. He said that he'd rather being alone than playing with his friends who annoy other kids.

Social Interaction

Hamdi's social interaction was good during the past three months. Hamdi is an active and communicative boy. He often plays, watches TV, and studies together with his friends. People like him because he is funny and smiles easily to everyone. Sometimes he is shy, especially when interacting with older people, but he is obedient and follows the rules of the foundation.

Educational Development

Hamdi still needs to be reminded to study, especially before the exams. He gets difficulty in Mathematics and still needs to learn more about it. He likes Religion because he likes writing

the Arabic letters and it is interested to him. His score in this semester are:

Religion: 76, Civic Study: 50, Indonesian: 79, Mathematics: 61, Science: 60, Social Science: 66, Art & Culture: 84, English: 70 and Drama: 82.

Family

Hamdi never got a visit from his family during the past three months, but he often communicated with them through phone.

Additional Information

Hamdi started to learn yoga and he really liked it.
