Physical Condition

Sahdan's physical condition was good for the last three months. He has a good sleep at night and his appetite was also good. He was able to maintain the cleanliness of his body and his clothes well so he never got sick. Sahdan rarely takes a nap in the afternoon. His weight is 45kg and his height is 155cm. He also diligently exercises by playing football and basketball.

Mental Condition

Sahdan's mental condition was stable and he was able to control his emotion well either when playing with his friends or when directed by the counselor when doing his chores. He is going into puberty and seems to be more calm and less cheerful than usual.

Social Interaction

Sahdan has a good social interaction with people in the foundation, especially with the counselor because he often helps the counselor in shelter. Sahdan often played with his smaller friends, Ali and Aim, he also often shared his food with them. He likes helping his friends out of his schedule. When his friends disturb him, he would stay away to avoid problems. He has no problem with his friends or staff in the foundation.

Educational Development

Sahdan has a good learning motivation at school and in shelter. He passed semester exam and ranked 2nd in his class. Because of this, he got a small present from his teacher and he directly shared it with his friends. Sahdan is really helpful in the classroom and he often helps his friends to understand the materials. He likes almost all subjects except Civics Studies, because there are too many materials to memorize in this subject.

Family

Sahdan always communicates with his family by phone and they often come to the foundation to visit him. His mother works overseas and the last time he saw her was in May when his mother visited him at the foundation.
