Physical Condition

During the past three months, Syafaat's physical condition has not changed much from previous months, his weight is 49kgs and he is 159 cm tall. He always looks clean and neat because he is able to take care of himself and maintain his personal hygiene.

Mental Condition

Syafaat's mood is stable and he shows maturity in controlling his emotions well. Sometimes he looks a bit tired because he has a lot of work from school. But Syafaat never complains about that. He is also resilient in facing his life's problems. When he feels down and sad, he will keep himself busy to overcome his sadness.

Social Interaction

Syafaat has good social interaction at home and in the Drugstore where he does his internship. He helps the people in his village when he has free time, he also comes to the foundation regularly and helps out the counselors in the shelter.

He is welcomed by the people in drugstore. He only needs to adjust himself from working in a hospital to working in a famous drugstore. So far he said he enjoys the process and cannot wait to graduate from school.

Educational Development

Syafaat's educational development during the past three months is good. He is now doing his internship in one of the famous Drugstores in Mataram. He makes medicine for cough, flu and fever for children. He will do this internship for three months.

Family

Syafaat's relationship with his extended family is good but he rarely stays at home because he is still busy with his internship. His aunt often looks out for him since she also lives nearby.

Additional Information

Syafaat really likes his major and still hopes that he will continue his study to University because he wants to be a pharmacist. His teachers at school already committed to help him enroll in a university in Java.
